## 👤 PROFILE

As a highly motivated and results-driven Full Stack Software Engineer, I bring a wealth of experience in crafting cutting-edge web applications. With a strong foundation in React and Python Flask, I have successfully delivered solutions that improve application performance and enhance user satisfaction. My passion for creating intuitive and responsive user interfaces, combined with a commitment to seamless backend integration, positions me as a valuable asset to any development team. I am now seeking opportunities to leverage my skills in a dynamic environment where I can contribute to innovative projects and drive continuous improvement. I also have experience working remotely.

## 📁 EMPLOYMENT HISTORY

### Front End Software Engineer at TipC Beverages, Nairobi

July 2023 — Present

- I was involved in a collaborative effort with a dynamic team of developers to construct a cutting-edge and responsive web application, implementing industry best practices, resulting in a 20% improvement in overall application performance.
- Innovatively crafted and developed front end components, guaranteeing an intuitive and responsive user interface that contributed to a 15% increase in user engagement and satisfaction.
- Pioneered the implementation and seamless integration of backend APIs, leading to a 10% reduction in system response time and elevating the overall system functionality and user experience.

## 🎓 EDUCATION

### Bachelor of Science in Civil Engineering, University of Nairobi, Nairobi

September 2018 — September 2023

Second Class Upper Division

### Diploma in Software Engineering, Moringa School, Nairobi

September 2023 — March 2024

HTML, CSS, JavaScript, React, Python, SQL, Flask

## ★ PROJECTS

### MULIVERSE

A React blog website that allows a user to create and store their own articles and thoughts. It leverages the concept of online personal diaries - React, CSS, DB.json server.

### STRATHMORE LEOS PLAYER MANAGEMENT SYSTEM

A player management web app that allows for the registration of new players, updating the details of the existing players and also deleting of players making it easy for the Strathmore Leos rugby management team to keep track of their players - HTML, CSS, JavaScript, DB.json server.
